Subject: Tulare Exemption - Elk Hills Power - EPA FRS ID 110012191430
Attachment D USDWs_Apr2012.pdf

Dear Michele,

I am following up on the EPA/Elk Hills Power conference call last month (3-19-2012) concerning the subject UIC Permit Application. The purpose of the call was to discuss the EPA's written request (3-14-2012) for supplemental information from Elk Hills Power. In particular, EPA has requested written documentation regarding the aquifer exemption for the Tulare formation in and around the project Area of Review. You indicated that this documentation could be sent to you in advance of the official reply to give you an opportunity to review and comment on it. Attached is the information we were able to find concerning the Tulare aquifer exemption.

Please let me, and Sonnie Pineda, know if there are any other items on this topic that Elk Hills Power may include with its official reply.

Best regards, AAB
